

WindShareFund Climate Impact Report

for the year ended 31 December 2019

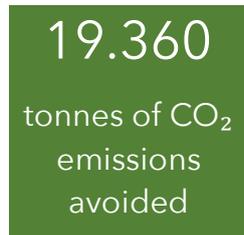

WindShareFund acknowledging the importance of the UN Sustainable Development Goals

WindShareFund adopted 2 of the of the 17 UN Sustainable Development Goals (SDGs) as a blueprint to achieve a better and more sustainable future. We address global challenges such as Affordable and Clean Energy and Climate Action. We believe fighting climate change and improving access to sustainable energy are instrumental in achieving many of the Sustainable Development Goals.

WindShareFund investments make a difference

The numbers below present our annual 2019 results in a context of positive social and environmental change.

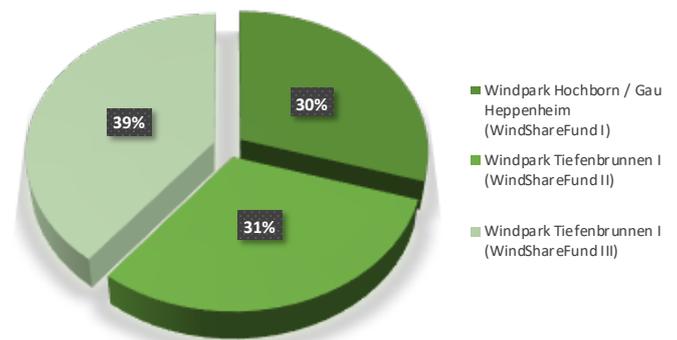

CO₂ emissions avoided: The clean energy generated by our turbines in 2019, resulted in 19.360 tonnes of avoided CO₂ emissions.

Trees: Only in 2019, we generated as much energy as 290.402 tree seedlings grown for 10 years

Production: The total production realised by our turbines in 2019 is 24.839.675 kWh.

The impact of each fund

Each of our funds - WindShareFund I, WindShareFund II and WindShareFund III contribute to the energy transition.
